BRONZE CABINET PULLS

HAND POLISHED CAST BRONZE CABINET PULLS

To address the design community's developing sense of style for outdoor kitchens, Brown Jordan Outdoor Kitchens is offering a collection of cabinet pulls made from solid cast bronze in five rich finishes. When combined with the variety of color and door options, a unique style statement can be made for every installation.

Patinas can be applied, or, as with some of the finishes, none is applied and the oxidation that occurs naturally gives the pulls their patina. Repeated handling will lead to graceful wear which is an inherent quality of the bronze. As with any hand-applied patina, color variations should be expected, lending character and distinction to the elegant design. These pulls are truly jewelry for the cabinet!

BRONZE CABINET PULLS

TWIG

CONTEMPORARY

BAMBOO

RAW BRONZE

SILICON BRONZE contains the elements copper, silicon, and zinc resulting in a golden-copper hue.

Color range: Polished Natural / Reddish-Brown / Dark Brown

WHITE BRONZE contains the elements copper, manganese, nickel, and zinc resulting in a silver hue.

Color range: Nickel / Pewter Grey / Black

Standard Colors:

S1

SILICON BRONZE

Burnished silicon bronze. No patina applied. Color is light honey brown. This finish will naturally oxidize with age to a light reddish-brown with some green on exterior or high humidity installations.

S3

Dark brown patina. Similar to an oil-rubbed bronze finish (similar to US10B).

W1

WHITE BRONZE

Burnished white bronze. No patina applied. Color is bright nickel-silver.

W2

Medium pewter grey patina. (similar to US15A).

WP

Polished white bronze. Similar to polished nickel.
