

# BROWN JORDAN

## OUTDOOR KITCHENS

## STAINLESS STEEL CABINETRY

## SPECIFICATIONS

Brown Jordan Outdoor Kitchens feature #4 brushed stainless doors, drawer fronts and cabinet interiors. Unique door styles powder coat options are also available to provide a rich contemporary look. The modular cabinetry provides designers and home owners with infinite flexibility in design configurations. Kitchens may be designed in concert with stucco or stone to complement the landscape architecture of the outdoors.

Brown Jordan Outdoor Kitchens stainless kitchen cabinetry is warranted to hold up for years under the most severe weather conditions... or demanding chefs.

European frameless design full overlay cabinets are fabricated with commercial grade 20-gauge stainless steel and are available in 24" and 27" depths for both indoor and outdoor applications. A quick look inside reveals the craftsmanship as the interior is void of any hardware and screw heads. Cabinet features include concealed stainless door hinges, solid core doors, trash pullouts, fixed and sliding shelves, leveling legs and "soft close, self close" drawers.

Brown Jordan Outdoor Kitchens offers the widest range of storage and organizational cabinetry in the industry. Cabinets are available in 3" increments (width) starting at 9" to as large as 48" in certain styles. Grill and appliance base cabinets are designed to accommodate every major manufacturer's grill.

The "easy-alignment" design system allows for quick, precise installation with less labor than typical wood cabinetry. Each cabinet stands alone and has quick connect features. Access holes in key locations for plumbing and electrical installation reduces the need for drilling, cutting and boring. A screw gun, long screwdriver, tape measure, level and the easy-to-follow instructions will ensure a professional installation the very first time.

Brown Jordan Outdoor Kitchens stainless kitchen cabinetry is warranted to hold up for years under the most severe weather conditions or demanding chefs.

## CABINET OVERVIEW

Base cabinetry is available in 3" increments, from 9" to 36" widths. Sink base and full height cabinets extend to 48". 24" wide cabinets can be specified with one or two doors.

While the standard outdoor cabinet depth is 27<sup>7</sup>/<sub>8</sub>" (including door), a 24<sup>7</sup>/<sub>8</sub>" depth may be specified. Total height is 34<sup>1</sup>/<sub>2</sub>". The cabinet box is 30"H plus 4<sup>1</sup>/<sub>2</sub>" adjustable legs. A square shaped tapered stainless steel leg with adjustable foot is also available for an open contemporary look. Black Anodized or stainless toe kick may be ordered separately and cut on-site. Stainless pulls, hinges and screws are included.

Drawers display premium features including #4 brush interior, double-wall construction, full extension, under-mount glides and "soft-close, self close". Doors have a PVC core to add "heft" and weight to provide a solid close and feel. Shelves are optional – fixed or pull out.

Wall cabinetry is available in 3" increments from 12" to 36". Standard heights also start at 15" and go to 42". Inside depth is the standard 12". The outside depth is 13" (13<sup>7</sup>/<sub>8</sub>" including door). Two doors are furnished with cabinets 24" to 36" in width. The line also includes diagonal corner and blind corner wall cabinets. Every cabinet is supplied with finished top and bottom panels, stainless pulls, stainless hinges and hardware. Wall cabinetry may also be fitted with standard or stainless legs and used as shallow depth base cabinets. Shelves are included.

Finished side panels are optional and are available in two configurations: flush to the cabinet side and as a 3/4" thick panel flush to the face of the door. Doors may be ordered in different styles and open for glass (OFG).

For "low maintenance" in harsh weather conditions, a clear powder coat "Protect A Coat" finish may be factory applied to safeguard the metal from chlorine (salt air). Brown Jordan Outdoor Kitchens also features a palette of designer colors and extremely realistic wood grain powder coats. All of the powder coats protect the stainless from chlorine (salt air) and muriatic acid which is used to clean pavers.

## OBF - FULL HEIGHT DOOR CABINETS

Example: Base Cabinet part number nomenclature;

OBF1801: 18" Full Height Door Cabinet

OB F 18 0 1  
Base Style Width Drawers Doors

All base cabinets standard depth is 27". For 24" depth cabinets, specify -24 after item #. For example OBF1501-24. Specify right or left hinge on single door sizes.

## GRILL BASE CABINETS

# BROWN JORDAN

## OUTDOOR KITCHENS

Grill base cabinets are available in widths from 33" to 62". Always specify the grill base cabinets 6" wider than the grill. A "trim kit" is installed during fabrication that is specifically designed for each grill. The trim kit tucks-in behind the control panel of the grill to ensure a proper fit. All grill base cabinets standard depth is 27".

Example: Base Cabinet part number nomenclature;

OGB3602: 36" Grill Base Cabinet w/2 doors for 30" wide grill

OG Appliance Type      B Style      36 Width      0 Drawers      2 Doors

### OGBXX02 — Door Only

Always specify the grill base cabinets 6" wider than the grill. A "trim kit" is installed during fabrication that is specifically designed for each grill. The trim kit tucks-in behind the control panel of the grill to ensure a proper fit. Optional pull out and stationary shelves are available.

Most grills including Solaire and Alfresco call for standard cabinetry. Some grills have extra deep (top to bottom) burner boxes. When specifying cabinetry for Fire Magic, Twin Eagle and Wolf grills, place the letter "D" following the item number to indicate extra deep.

## OTPXX – TRASH PULLOUT ACCESSORY

Shown installed in an OBD1811 cabinet. Trash pullouts are designed to fit 15"- 24" wide OBF, OBD, OBB Side Burner cabinets, and 36", 42" and 48" Grill cabinets.

## OSHXXP – Pullout Shelf

Stationary and pullout shelving is available. Pullout shelves may be placed at various heights and installed in base cabinets with a door. For ice chests, shelves come with extra heavy duty glides and hold up to 175lbs.

## FILLERS & PANELS

**Fillers:** May be used to fill space between cabinets and/or between a wall and cabinet. Designations: OFLF and size (front filler), OFL and size (back filler).

ORS

**Spacers:** Used to "lock-in" the exact size opening for under counter appliances. Spacer attaches behind refrigerators, ice makers or dish washers to cabinets on either side of the opening. Designation: ORS and size.

**Corner Fillers:** 45° and 90° angles used to attach cabinetry together for continuous look. Standard corner fillers are 4" on either side on bend. Designation: OAF and degree bend (front filler) and ORF and degree bend (rear filler).

**Finished Ends, Side and Rear Panels:** Due to the fabrication method, exposed sides and rear of the cabinetry require finished panels. Designation: OSP and depth (side panels), OBP and width (rear panels) and OBPV and width (vented rear appliance panels).

ORP with ORS & bracket attached

**Refrigerator Side Panels:** To support the countertop where appliance is positioned at the end of a cabinet run. The side panel is 37/8"W and attaches to a spacer (ORS). It is finished on one side and adjustable legs are included. Designation: ORP and appropriate depth.

OFLFX Fillers

OAF90

OAF45

OAR45 (includes panels)

OAR90 (includes panels)

**Cabinet Trim:** A flat 30"H x 4"D finished stainless piece that attaches to a cabinet to hide the unfinished wall located next to an under counter appliance. Designation: OCT4 (adds only thickness of metal to width).

**Box Columns:** Attaches to a corner filler to support the countertop where an appliance is adjacent to the corner. Also attaches to spacers to separate two appliances that are positioned together. Box Columns are 3<sup>7</sup>/<sub>8</sub>"W and come with adjustable legs. Designation: OBX and appropriate depth.

**Shelves:** Stationary and pullout shelves are optional features. Pullout shelves have a 2" lip on all four sides. A shelf with "heavy-duty" under mount glides may be specified for ice chests. Designations: OSH and width (stationary shelves), OSH cabinet width and P (pullout shelves) and OSH cabinet width PCHEST (heavy duty pull outs).

**Toe Kick:** Black and Stainless toe-kick are available in 4" and 6" heights. Priced either in 96" lengths or by linear inch, all necessary hardware and clips are included.

**Low Maintenance Finishes:** Powder coat finishes in clear "Protect-A-Coat", several "Species of Wood" and designer colors are available. Finishes are resistant to salt air, chlorine and muriatic acid.

**Door Style Upgrades:** Standard Hampton slab door may be ordered as a Rio (open for glass) for use as wall cabinet door. Key West (shaker style) and South Beach (mitered) doors accept stainless, powder coat designer colors or wood grain finished panels as well as glass. The South Beach door style is for indoor use only.

SS LEG

If toe kicks are not used we offer a finished stainless steel adjustable leg to complete the cabinet run.

DOHC60	60" 1300 CFM Outdoor Hood, 60"W x 32"D x 24"H, Halogen lights, 3 speed, includes blower
Inline Blower	1266 CFM inline blower to replace internal blowers
Duct Silencer	36" duct silencer for 10" duct work (for inline blower only)

Generously proportioned 32" depth of hood provides an exceptional capture area for BBQ grilling. Hoods feature two internal sealed motors that deliver 1200 CFM, Four — 12" by 15" baffle filters improve performance (six filters on 48", eight filters on 60"), Optional in-line

blowers deliver 1266 CFM (10" diameter ducting) (purchased separately). Available in 3 sizes 36"W, 48"W, and 60"W. Blower Assembly can be purchased separately to be built into custom enclosures. ex. DOHC48-Liner. Duct covers are available (specify).

Wall cabinetry is available in 3" increments from 12" to 36" wide. Standard heights also start at 15" and go to 42". The outside dimension is 13" (13<sup>7</sup>/<sub>8</sub>" including door). Two doors are furnished with cabinets 24" to 36" in width. The line includes diagonal corner and blind corner wall cabinets. Every cabinet is supplied with a top and bottom finished panel, stainless pulls and European style stainless hinges & hardware. Finished side panels are optional and are available in two configurations: flush to the cabinet side and as a 3/4" thick panel flush to the face of the door. Doors may be ordered in different styles and open for glass (OFG). For "low maintenance" requirements, they can be painted in clear (Protect-A-Coat), or powder coat specified colors. Powder coat versions of several wood species are also available. Wall cabinetry may also be fitted with standard or stainless legs and used as shallow depth base cabinets. 1 - 3 shelves are included, depending on the height of the cabinets.

Example: Wall Cabinet part number nomenclature;

WS3642: 36" Wide, 42" High Wall Cabinet

WS      36      42  
Wall Cabinet   Width   Height

WSXXXX – Wall Cabinets

On all single door cabinets specify right or left hinge.

Wall corner units are available as well to fit directly over the coordinating bases.

We also offer refrigerator depth (24") cabinets in a variety of widths and in 12" and 15" heights.

Finished end panels, both flush and 3/4" thick are available.

Additional cabinet heights available: 15", 18", 21", 24", 30", 42".

Designers and builders of masonry island kitchens are now offered a complete line of door, drawer/drawer combinations and pullout cabinetry to construct a totally functional kitchen. The line features the optional Clean-Stor® box that attaches to door fronts to create useful storage and organization. The Clean-Stor® box eliminates the infamous "masonry black hole" that lurks behind access doors. The steel construction is superior to presently used insert materials that are subject to warping, rotting and mildew. The Clean-Stor® box comes with a shelf and provides clean dry storage.

Doors exhibit the same stainless quality, "heft & weight" and solid close as the modular cabinetry line allowing additional design flexibility by using both lines to create the ideal kitchen while retaining a consistent "look".

The insert line includes:

- One and Two Drawer Units
- Door and Drawer Combination Units
- One and Two Door (and frame) Units
- Paper Towel Dispenser
- Trash and Propane Pullouts

Access Door Inserts may be purchased with just the frame and doors or combined with the "Clean-Stor®" box as a complete unit.
