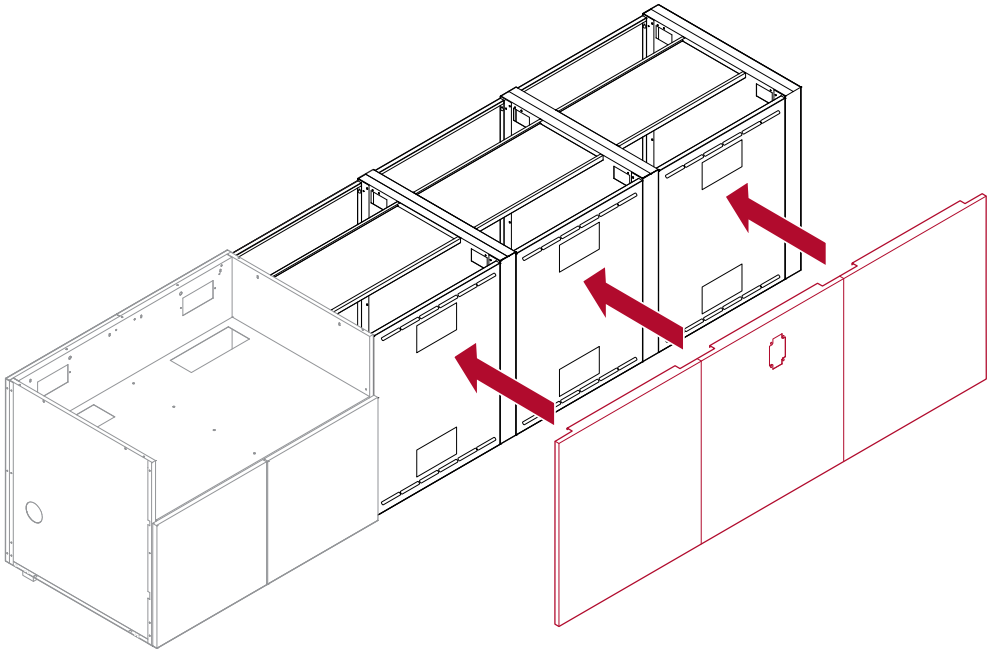
Post and Panel System - PPS SUPPORT MID, END



Product Description
PPS – Post and Panel System: Using a combination of supports, spacers, and panels you can create countertop space without the additional cost of doors or drawers. These parts assemble to be stand-alone units or connect with base cabinets. Ideal for multi-family spaces, the supports can also be brought down to ADA compliant height with our available ADA legs. Panels can be made to match any door style. 36"H versions of all PPS parts are available as well, with an extra option of 18"D. 36"H PPS parts are designated with a -TALL at the end of the SKU.

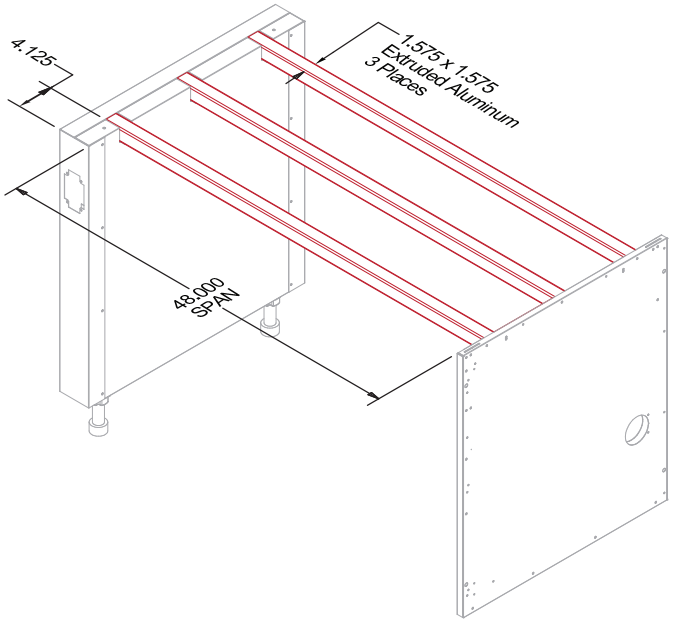
Countertop Span Support: OCSxx



Product Description
OCS: Countertop support spacer. Consists of 3 aluminum extrusions with considerable stiffness. **While the span extrusions are extremely strong, our company does not warrant the spans to keep countertops from cracking, especially if mistreated during use. Your fabricator/installer must make the final call if there are any questions on stability across the span.** When using an OCS with an ORP at the end of a run, be sure to select and ORP OCS part. When using an OCS with a cabine, finish the cabinet side using an OFE OCS part.
