- Cabinet usage for the Brown Jordan Elements line differs from Danver Base Cabinets.**
- Please follow the guidelines below when quoting an Elements runs:**
1. All Elements by Tecno Base cabinets and accessories use the prefix: ELEM. This is designed to help you find the specific Elements base needed.
 2. **60" maximum length of unsupported cabinets.** When reaching 60" in a run, a Transition piece is needed to attach to the frame and provide stability with another set of legs.
 3. **Elements Left & Right Side Panels must be used to end each side of a run.** These panels come with a set of 2 legs which attach to the frame. Standard Elements bases do not come with legs attached, these are always provided with ELEM OSP and ELEM TRANSITION parts.
 4. **Undercounter appliances** cannot be used at the END of a run. Grill and Side Burner Bases can be used anywhere.
 5. **Elements Grill base cabinets** must have Transition pieces on either side of the grill. Elements Grill bases are designed to house grills that are 3" smaller than the overall cabinet width. Ex: Alfresco 42" Grill would be housed in an ELEM OGB4520.

Elements - Door Style and Cabinet Box

All Elements by Tecno Base cabinets have the same door style that is different than other base cabinetry which comes standard with Hampton slab doors. Please reference the specifications below.

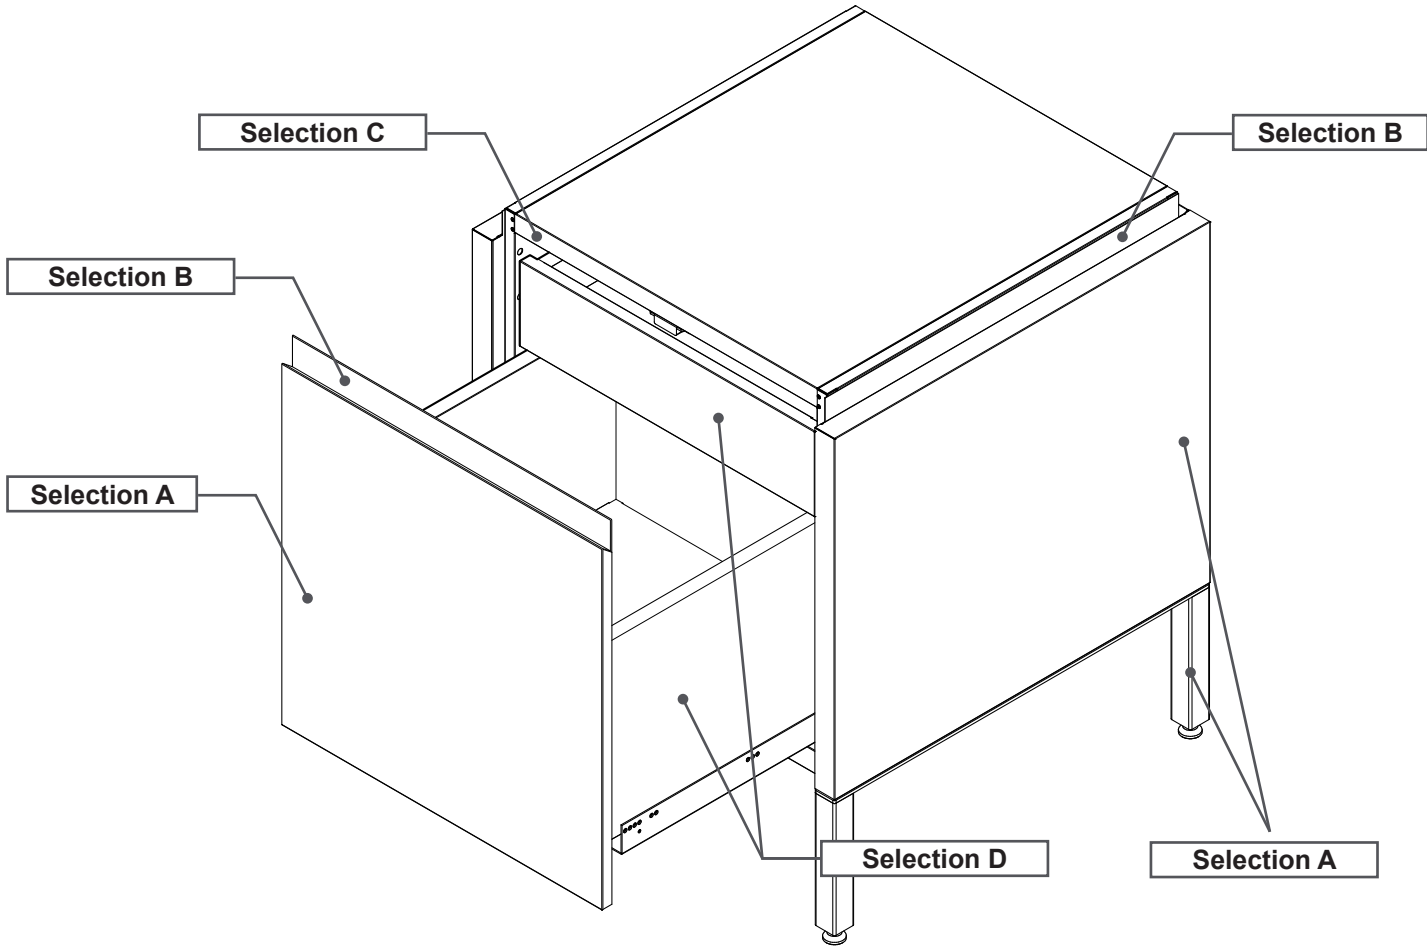

Elements - Powder Coat Guide

Please use this guide for selecting powder coat color options when ordering Elements cabinets.

Note: Choosing a color for **Selection A** will result in **Selection B** being painted the same color unless otherwise noted.

Elements - Transition & OCS Countertop Support

| Product Description |
|--|
| ELEM OCS: 1.575" Thick with matching reveal, includes 2 legs and adapter plate, used for connecting two runs of Elements cabinets (segments of cabinet runs cannot be more than 60"W), Countertop support spacers are cut 1.5" longer than size listed to fit inside adjacent supports by .75". *legs/leg covers will be same color as cabinets unless otherwise specified*, 3" leg covers included to cover glides if desired |
| SKU |
| ELEM TRANSITION |

Note: see regular OCS specs for additional part details.

| Product Description |
|--|
| ELEM OCS: Brace kit to support countertop over a 30" span. Countertop support spacers are cut 1.5" longer than size listed to fit inside adjacent supports by .75". Consists of 3 aluminum extrusions to provide considerable support. Note: span extrusions are very durable. Danver does not warranty the spans to keep counter tops from cracking if mistreated during use. The fabricator/installer must determine if there are any stability issues across a span. |
