BROWN JORDAN OUTDOOR KITCHENS

As the premier luxury brand in outdoor furniture, Brown Jordan has shaped the way we entertain and relax outdoors since 1945. For over 75 years, Brown Jordan has been the leader in innovation, boasting award-winning craftsmanship and an unrivaled reputation for iconic, timeless designs. Their unwavering commitment to working with acclaimed designers and industry-leaders places Brown Jordan at the forefront of the outdoor furniture industry.

When the company's presence expanded into the outdoor kitchen market, Brown Jordan turned to the experts at Denver Stainless Outdoor Kitchens. As the innovator of powder coated stainless steel cabinetry, Denver has been reimagining the world of outdoor kitchen design for over 20 years. This special partnership developed into Brown Jordan Outdoor Kitchens, giving the customer the ability to customize their Brown Jordan Outdoor Kitchen using best-in-class finishes, designs, and amenities – with the attention to detail that is synonymous with the Brown Jordan brand.

Your outdoor space is an extension of your indoor space. At Brown Jordan Outdoor Kitchens, we carefully consider and elevate every element of the outdoor experience. Whether you are designing an extension of your home or creating a unique look to differentiate the space, Brown Jordan Outdoor Kitchens has the products and design expertise to deliver an exceptional experience. Imagine your dream outdoor kitchen environment and we will create it – with superior design elements and uncompromising quality.

WHO WE ARE

At Brown Jordan Outdoor Kitchens we believe that design cannot exist without quality. We strive to elevate not only the outdoor kitchen, but the entire experience of being outside.

We do it through innovation – taking the best ideas and materials to create solutions that blend style and function seamlessly. Before everyone was talking about door trims or specialty cabinetry, we were here, developing this niche category for customers who knew their own taste and didn't want to settle.

Our focus hasn't changed: We make the outdoors a unique extension of those personalities and we continue to redefine what time outdoors can become.

OUTDOOR LIVING

Imagine a dream outdoor space. What would it include, how would it function? These are the starting points for a Brown Jordan Outdoor Kitchen. We give clients the freedom to express themselves with the highest quality finishes, designs, and amenities – all tailored to their individual taste. We're not about one vision, we're about your vision.

FINISHES AND DOOR STYLES

Brown Jordan Outdoor Kitchens offers a variety of powder coat finishes and elegant door styles that bring craftsmanship and character to outdoor kitchens. Our range includes a spectrum of colors, realistic wood grains and traditional metallics – we can even match Brown Jordan furniture.

TECNO™ OUTDOOR KITCHENS

Designed by Brown Jordan Outdoor Kitchens and Daniel Germani Designs, TECNO™ represents a new direction in our outdoor living collection. With a quiet frameless design and nested, soft-close drawers with integrated, hardware-less pulls, the series merges contemporary sensibilities with an inviting, tactile ease. The look is simple, finished, and versatile for any environment. This is our version of warm modernism.

ELEMENTS™

The second collaboration with Daniel Germani Designs and Brown Jordan Outdoor Kitchens. ELEMENTS™ is our look to the future. Sleek and minimalist, the collection distills only the essentials with nested drawers and hardware-free, integrated handles for drawers and doors. It's a forward-thinking concept with superb attention to detail. We give you a powder coated finish – inside and out – featuring any of our standard finishes and timeless style that endures. Think of ELEMENTS™ as our clean, modular vision of the future – one with beautifully curated materials, smart details and a lasting impression.

MULTI-FAMILY DEVELOPMENTS

More than simply a high-rise, Multi-Family includes senior living, student housing, commercial or hospitality. Brown Jordan Outdoor Kitchens helps you design a best-in-class outdoor amenity package. We are experts in the category, and we understand the need for ultra-durability, commercial-grade appliances, ADA-compliant cabinetry, and other complexities that will stand up to everyday use...and abuse.

POST & PANEL SYSTEM

For Multi-Family and Residential

When architects and builders expressed the need for a more robust solution designed for Multi-Family common areas, we introduced our innovative Post & Panel System (PPS). This system features all the design that you expect from Brown Jordan Outdoor Kitchens and allows you to edit exactly what you need – less storage, different configurations, high-traffic durability. You know what the project requires, with PPS you can customize a high-performance outdoor kitchen that suits every environment.

HOW IT'S MADE

Brown Jordan Outdoor Kitchens are made to inspire, to impress and to last. Made for the longest life, these stainless steel kitchens feature all the elements that make them unique in the industry with powder coated finishes and the latest technology guiding every assembly. Manufactured in Connecticut, every piece in our collection is made by trained craftsmen who take pride in creating.

BEYOND THE CABINETS

Nearly every activity has moved outdoors – from cooking to hosting and celebrating. As homeowners shift to using their outdoor kitchens, transitional rooms, and rooftop patios every day, there is a desire to make those spaces even more exceptional.

Brown Jordan Outdoor Kitchens answers the call with our suite of durable, stylish cabinetry that can service a range of cooking capabilities, amenities and layouts – all designed to give the exterior its own distinct appeal.

Investing in the beauty and function of your outdoor entertainment space is more than a value-add for a property, it's a lifestyle must.
