WHO WE ARE

Brown Jordan® Outdoor Kitchens™ is the result of a special partnership between Denver Stainless Outdoor Kitchens, the experts in stainless steel outdoor kitchens, and Brown Jordan®, the premier manufacturer of luxury outdoor furniture.

Our 100% stainless steel cabinetry is made-to-order in the USA, ensuring that the specifications of your project are unique to you. We believe that pure and uncompromised design cannot exist without quality and freedom, which is why we offer dozens of styles and colors, as well as hundreds of sizes.

Brown Jordan Outdoor Kitchens combines quality, durability, and engineering perfection, along with best-in-class color, style, and design. We bring your vision to life with striking attention to detail and a high-quality finish that will provide a lifetime of durability and beauty in your outdoor living space.

MODULAR DESIGN

CUBE is a special collection by Brown Jordan Outdoor Kitchens that brings sophisticated cabinetry design to outdoor spaces.

CUBE pushes the boundaries of stainless steel cabinetry with its architecturally inspired design. The modules of CUBE can be finished in monochromatic or contrasting powder coat finishes using any of the options in our collection or Brushed Stainless Steel.

With clean lines and brilliant colors, CUBE is a testament to the creativity of stainless steel.

STYLE & CONSTRUCTION

- All drawers and cabinet boxes are manufactured from 20g 304 stainless steel or choose to upgrade to 316 marine grade.
- Standard 31.75" high cabinet boxes plus 4.5" leveling legs adjustable from 3.75" to 5.75".
- Magnets and concealed hinges are standard on all cabinets with doors. Weather-resistant gaskets are applied on all doors and drawers.
- All drawers feature full extension, soft-close glides.
- Pre-cut access holes to accommodate plumbing, electrical and required ventilation.
- CUBE cabinetry utilizes drain channels to allow water to pass through the bottom and sides of the cabinets' construction. Water can pass through lower drawers during inclement weather conditions. For additional weather resistance, the kitchen can be installed in covered outdoor spaces.

CABINET FEATURES

To provide a finished look from all angles, left- and right-side flush end panels are added to end cabinets as needed. The optional side and back panels make the CUBE collection highly versatile, enabling stylish solutions for kitchen islands or smaller sections of cabinetry.

Top section can be finished in any powder coat color from our collection or Brushed Stainless Steel. Shown in Autumn.

Riser between top and bottom sections is standard in Midnight Matte powder coat.

Drawer interiors can be finished in Brushed Stainless Steel or wood grain powder coat finish. Shown in Walnut Wood Grain powder coat finish.

Bottom drawers feature a nested drawer for additional convenience and extra storage.

Bottom section can be finished in any powder coat color from our collection or brushed stainless steel. Shown in Brushed Stainless Steel finish.

Midnight Matte powder coated toe kick provides an elegant finish the bottom of your cabinets.

CUBE finished in matching Military Blue powder coat on both top and bottom sections

CUBE finished in Autumn powder coat on top section and Brushed Stainless Steel on bottom section

POWDER COAT OPTIONS

- Bottom section: specify a powder coat finish or Brushed Stainless Steel.
- Top section: specify the same powder coat finish as the bottom section or Brushed Stainless Steel. As an upgrade, choose a contrasting powder coat finish.
- The standard drawer interior finish is Brushed Stainless Steel. As an upgrade, choose a wood grain powder coat finish.
- Nested drawer fronts will match the bottom section powder coat color selection. If a wood grain powder coat is chosen for the drawer interior, the nested drawer fronts will be finished in the matching wood grain powder coat.
- Risers and toe kicks are finished in Midnight Matte powder coat.

DESIGN GUIDELINES

All CUBE cabinets and accessories use the prefix: CUBE. This is designed to help you find the specific CUBE part needed.

Base Cabinet part number nomenclature

using CUBE OBS3602 LEFT BP as example

Prefix	Category (Base)	Style (Sink)	Width (Inches)	Drawer(s)	Door(s)	Side Panels	Back Panels
CUBE	OB	S	36	0	2	LEFT	BP

BASE CATEGORY CODE KEY	
Outside Base	OB
Outside Grill	OG

BASE STYLE CODE KEY	
Burner (or Base)	B
Garage	G
Multi-Drawer	M
Sink	S
Trash	T

CABINET USAGE

- On cabinets that are joined to cabinets on both sides, riser extends the full width of cabinet.
- On end cabinets without back panels (NO BP), riser extends the full depth of cabinet.
- On LEFT cabinets, riser is recessed on the left side and flush with the right side of cabinet.
- On RIGHT cabinets, riser is recessed on the right side and flush with the left side of cabinet.
- On LEFT NO BP cabinets, riser is recessed on the left side and extends the depth of cabinet.
- On RIGHT NO BP cabinets, riser is recessed on the right side and extends the depth of cabinet.
- Undercounter appliances cannot be used at the end of a run. Grill bases can be used anywhere in the run.
- Be certain to specify left or right flush end panels (OFE) for bases at the end of a run for any visible sides.

DESIGN GUIDELINES

CORNER PLACEMENT

When a cabinetry run is placed in a physical corner with walls, Flush End Panels (OFE) and Back Panels (OBP) are not needed.

- Use OBM/OBT/OGB NO BP for the end cabinet that meets the corner.
- The recessed riser is extended on the front to be flush with end of cabinetry.
- No OBP or OFE parts needed for corner placement.

BACK WALL PLACEMENT

When a cabinetry run is placed against a back wall, Back Panels (OBP) are not needed.

- Use OBM/OBT/OGB LEFT NO BP for a left exposed side or RIGHT NO BP for a right exposed side.
- The recessed riser is extended on the side to be flush with back of cabinetry.
- Add OFE TOP and OFE BOTTOM Flush End Panels on exposed side as needed.

KITCHEN ISLAND PLACEMENT

When a cabinetry run functions as an island, it will be finished on all sides.

- Use OBM/OBT/OGB LEFT BP or RIGHT BP for end cabinets.
- The riser is recessed on all sides except for where it connects to the rest of the run.
- OBP Back Panels included. Add OFE Flush End Panels as needed.

BASE CABINETS

OBMXX30N

CUBE OBMxx20N Outdoor Base Cabinets feature 2 drawers with an additional nested drawer inside lower drawer. Available in 18”, 21”, and 24” widths in 3” increments.
